Office of Inspector General
Texas Health and Human Services

State Fiscal Year 2020
September 1, 2019 - August 31, 2020
Introduction

This joint interagency report between the Health and Human Services Commission (HHSC) Office of Inspector General (OIG) and the Office of the Attorney General (OAG) is pursuant to Texas Government Code §531.103(c). The report summarizes statistical data and other information involving the collective efforts of the OIG and OAG to identify and deter fraud, waste, and abuse in the state Medicaid program for the period of September 1, 2019, through August 31, 2020.

The OIG, OAG Medicaid Fraud Control Unit (MFCU) and OAG Civil Medicaid Fraud Division (CMF) recognize the critical importance of collaboration and regular communication in the ongoing coordinated effort to identify and deter fraud, waste, and abuse in the Medicaid program. The OIG, MFCU, and CMF have worked closely to strengthen collaboration efforts and information sharing during the reporting period through:

• Meetings between the MFCU Director and the OIG Inspector General and key staff.
• Regular meetings involving MFCU, OIG Investigations and Reviews Division (OIG I&R) and OIG Chief Counsel staff to focus resources and efforts on (a) specific cases under investigation to maximize recoveries and minimize provider abrasion and duplicative efforts, and (b) unusual provider billing trends and other concerning provider activities.
• Dedicated attorney, analyst and investigator resources to support and coordinate efforts of MFCU and CMF involving violations of the Texas Medicaid Fraud Prevention Act and the Federal False Claims Act and to engage in multistate settlement negotiations.

Highlights of Coordination Activities

The OIG and OAG are committed to collaboration and coordination in all aspects of the joint efforts to identify and deter fraud, waste, and abuse in the Medicaid Program. These efforts range from the alignment of cross-agency processes to opportunities for management and staff at OIG, MFCU and CMF to participate in joint training opportunities. A summary of the collaboration and coordination activities during the current report period include:

• Continued cross-agency processes to recoup provider overpayments when no criminal charges are filed and to de-conflict overlapping administrative and criminal investigations. Development of an additional “request & response” shared spreadsheet maintained by dedicated OIG and MFCU staff to track evidence requests and process de-confliction requests.
• Completed development and implementation of “eProsecutor,” an automated case management system for the MFCU. The system output includes a “Disposition Report” that
allows for prompt sharing with OIG the results of every referral submitted by OIG, removing
the need for OIG to individually request investigation outcomes.

- Ensured timely responses by OIG I&R supervisors and MFCU Field Office supervisors to
include the scheduling of informal telephone conferences to discuss pros and cons of
parallel investigations when subject matter overlapped.

- Continued working collaboratively under the current Memorandum of Understanding
(MOU) between OIG, the MFCU and CMF. The MOU is updated every five years as a federal
requirement for MFCUs and Medicaid single state agencies; it governs interagency
cooperation and exchanges of information.

- Continued working with OIG points of contact to facilitate access to and review of
documentary evidence in possession of OIG I&R or the Litigation Division by criminal
prosecutors from the MFCU.

- Continued sharing the MFCU closed case report with OIG to assist identification of the
correct provider name when restitution checks are received from court agencies that only
reference a single defendant name.

- The MFCU coordinated and accepted assistance from OIG when data requests from
Managed Care Organizations (MCOs) were not received within the agreed time frame.

- Participated in joint meetings with the MCO Special Investigative Units (SIUs) and the Texas
Fraud Prevention Partnership (TFPP). The focus of these collaborative efforts is to
coordinate among the OIG, MFCU, and the Medicaid health and dental managed care
organizations in conducting investigations to deter fraud, waste, and abuse. The TFPP SIU
meetings take place three times a year.
